

# Something Special

Slide & Find  
Game

Rules of the Game

## 2-4 players

**Something Special is a colourful, fun show featuring much loved presenter Justin Fletcher along with a host of friendly characters. Mr Tumble loves to explore the world around him with Justin and his Tumble family – Lord Tumble, Aunt Polly and Grandad Tumble to name a few! Mr Tumble loves sending Justin things to find in his magical Spotty Bag – why don't you help Mr Tumble with the magic words "Take your finger, touch your nose, blink three times and off it goes!"**

Slide & Find is a new and exciting memory game. But you also need a little luck! Turn over one of the cards, throw the dice and try to look for the matching picture card by moving one of the sliding cards. The person who has found the most pictures at the end of the game is the winner!

### **Contents:**

- 16 Square picture cards
- 15 Sliding cards
- 1 Frame with the 16 round playing cards
- 1 Dice
- Rules of the game

### **Before you start**

1. Take all parts (except the interior) out of the box. Press the picture, sliding and round playing cards carefully out of the cardboard frames and lay them on the table. Keep the square cardboard frame - with the 16 round holes - you will need it to play the game. The rest can be placed in the recycling bin.

2. Place the open box (including the interior) into the centre of the table. Shuffle the 16 square Something Special picture cards and deal them to all players. Each player then puts their picture cards next to each other with the picture face up in the box - this ensures that the picture cards are not in any particular order.

3. Next, place the square frame with the round holes on top of these picture cards. Ensure that the smooth side is face up.

4. Now cover all except one of the pictures with the help of the 15 sliding cards. Ensure that the sliding cards are placed with the Something Special pattern facing up. One of the images remains uncovered.

### **This is how you play**

Shuffle the round playing cards and put them in a stack on the table, picture side down. The youngest player starts by turning over one of the round cards. Lay this card so that all players can see it. Throw the dice and move the sliding cards as often as the dice indicates. You are not allowed to move two or more sliding cards simultaneously.

If you have thrown a 3, then you can slide up to 3 cards (one at a time). Try to find the picture which matches the round playing card.

Have you found the matching picture within the number of moves allowed? Yes - well done! You keep the round playing card and can have another turn. No - your turn is finished and it is the turn of the player to your left. This player now throws the dice and tries to find the same matching picture.

### **Who wins?**

The player who has collected the most round playing cards is the winner! More than one player with the same number of round playing cards? You are all winners!
