

Peppa Pig

3+

Start with a double tile.

Try to match one of your tiles.

You can only place a tile at the start or end of the chain.

Go around the corner for fun or to avoid the edge of the table.

How do you play Dominoes?

Shuffle all the domino tiles with their pictures facing down. Each player takes 5 tiles. The rest of the tiles are placed on the side in one giant stack. The youngest player to have a domino tile with two identical pictures on it, starts by placing this tile in the centre of the table.

Now the player to the left tries to match one of his tiles with the one that has been put on the table, creating a "chain" of pictures. If none of your domino tiles match that image, you have to take a new tile from the stack. Now the next player can try to match one of their tiles. You are only allowed to place a tile at the start or end of the chain. Any time you cannot match one of your dominoes to an image at the start or end of the chain you must take another domino from the pile.

The 1st player to get rid of all his tiles wins!
